

**WIPB is my source for a safe place for
my children to grow, learn and explore**

—Gail Malaby Muncie, Indiana

Public broadcasting has something for everyone. I encourage my kids to watch PBS Kids because I know that they are learning something in an enjoyable way. Zula Patrol is one of my son's favorites because he wants to be an astronaut and he learns all about outer space. And I learn about outer space when I watch it too. I love that my son is getting something out of the programs on PBS Kids.
